

## FlexFit Series Black Silicone Lens

for Slat Wall Applications

Inspired LED

SKU: 8618

### Product Features:

- Silicone cover designed for slat wall installations; requires 0.5" width between slats
- Anti-yellowing formulation to maintain clarity over time
- UV & flame-resistant compounds for enhanced durability and safety in indoor or outdoor environments
- Translucent black silicone ensures uniform light output and diffusion

### Compatible Accessories: *(sold separately)*

- **Flexible LED Strips:** All Inspired LED flexible LED strips are compatible, with the exception of the Double Row Ultra Bright and Outdoor options.
  - *Note: Color-changing or color-shifting connectors are not compatible due to size constraints; direct-soldered cable leads will be necessary for these systems.*
- **End Caps:** Slat Wall End Caps (SKU 8619-END).
- **Mid Caps:** Caps to cover connectors and cable, allowing for mid-way terminations (SKU 8619-MID)
- **Connectors:**
  - Single-Color 8mm Clear 4-Screw (SKUs 8579-END, 8579-MID).
  - Single-Color 10mm Clear 4-Screw (SKUs 8591-END, 8591-MID).

### Specifications:

- Available in 100M or custom lengths (sold by the foot)
- Maximum Flex Width: 0.47" (12mm)
- IP Rating: IP20 - for dry environments
- Operating Temperature Range: -13°F to 140°F
- Net Weight: 0.07 lbs/ft (108 g/M)
- RoHS Compliant
- 3-Year Limited Warranty

### Applications:

Designed for slat wall or recessed installations with slot dimensions of 0.51" (W) × 0.39" (D). For best results, align and press the silicone cover firmly into place to ensure a secure and flush fit.
