

inspired LED *Sewing Machine LED Lighting Kit*

The single light that comes with sewing machines often does not provide enough light to see the small details of a complex sewing project. The **Sewing Machine LED Lighting Kit** from Inspired LED is the perfect solution with just the right amount of light for all your sewing needs!

Instructions: Watch our full installation video at: <https://www.youtube.com/watch?v=qnCwclGbi7g>

- 1 Position sewing machine so that end cable of LED strip will run along back side
- 2 Hold LED strip in desired location under neck of machine, measuring necessary length
- 3 Cut LED strip to length on copper pad “cut points” located every 3 LEDs, keeping side with cable
- 4 Peel adhesive backing off of LED strip and stick LEDs under the neck of sewing machine
- 5 Run end cable from LED strip around the back of sewing machine
- 6 Peel adhesive backing off switch and stick to desired location on sewing machine
- 7 Plug cable from LED strip into the input port on the SIDE of switch
- 8 Plug cable from power supply into the other input port on the SIDE of switch
- 9 Plug power supply into wall outlet and turn on switch to test LEDs
- 10 Peel adhesive from black clips, use to hold back excess cable, and enjoy!

Specifications: SKU# 3522

- ◇ (1) Power Supply- 2.3" x 1.6" x 1.3" body with 6' cable, 3.5mm x 1.3mm jack, UL Listed 100-120VAC to 12VDC / 1Amp
- ◇ (1) Cool White (6000 K) LED Light Strip w/ adhesive backing- 0.31" x 0.06" x 24" plus 12" cable
- ◇ (1) In Line Switch w/ adhesive backing- 2.6" x 0.69" x 0.65"
- ◇ (2) Cable clamps w/ adhesive backing- 1" x 1.15"
